SUMMARY

I am a seasoned professional with 8+ years of expertise in web application development. My proficiency spans both frontend and backend technologies, enabling me to deliver comprehensive solutions. My commitment to excellence has resulted in the timely and successful completion of projects, where I have maintained a keen focus on meeting quality benchmarks.

EXPERIENCE

Senior Lead Developer
Nov - 2020 to Present
AppKnit — Bangalore, Karnataka

- Integral team member since the project's inception and engaged in diverse responsibilities, from requirements gathering to design collaboration, development, and project management.
- Played a key role in onboarding and training young talents, facilitating their integration into project work and provided technical guidance, mentoring, and support to ensure efficient completion of work items.
- Maintained a commitment to delivering all aspects of the project with impeccable quality.

Specialist Programmer
Dec - 2017 to Oct - 2020
Infosys Limited — Bangalore, Karnataka

- Joined as a consultant via Thought Disrupt company to work on the front-end application using Angular.
- Offered to join as permanent employee because of the performance and took additional responsibilities to engineer the solution end to end.

Software Engineer
Jun - 2016 to Aug - 2017
Robert Bosch Engineering & Solutions — Bangalore, Karnataka

- Developed responsive web applications independently for various smart solutions using Angular and Bootstrap.
- Led an 8-member team to successfully develop the end-to-end Active Assist web application, including backend microservices.

Software Engineer
Apr - 2015 to Apr - 2016
KMIT Solutions — Coimbatore, Tamil Nadu

- Actively collaborated with team members in the development of the frontend application, demonstrating strong teamwork.
